

Cronon AG – Change is the constant

What is the IT-future of your company?

Is your software and hardware flexible enough to meet emerging requirements? Can your company deal effectively with changes in the market – not only now, but in the future? Do you have the IT management you need?

These questions become crucial when IT investments are pending or when evaluating current solutions.

If you are facing these challenging issues then this is exactly the right time to talk to the Cronon AG.

Cronon specializes in

- Software Services
- Internet Service Provider

especially for the needs of medium-sized companies.

The Cronon AG will implement both targeted and complete solutions based upon proven standard software adapted perfectly to your particular needs.

Ongoing support – even for systems we did not install – is also part of our service.

Get everything you need from a single source!

The Cronon AG was founded in the year 2000. Our headquarters is located in Berlin. Cronon runs two data processing service centers, which are among the safest and most efficient in Europe.

We are a subsidiary of the STRATO group – one of the market leaders among european internet service providers.

Cronon AG – Software-Leistungen

Are your software services flexible enough?

If you hesitate when answering this question, maybe you are simply missing the right standard solution! A solution specially tailored to the needs of your industry which is adaptable and can grow with your business.

In the Business Solutions department of the Cronon AG you will get results that meet these demands, for

- Enterprise Resource Planning (ERP)
- Barcode and RFID Solutions
- Data Base Management

Whether for ongoing service of your IT systems, an in-depth feasibility study, or the fast implementation of a project – we are the right address!

The Cronon AG is your competent and dependable partner. We apply our flexibility and willingness to go the extra mile to meet your needs, and based upon our years of experience will make your project a success.

With us you can face your company's future with assurance.

Together we will create software services that can adapt to meet both current and future requirements!

Employees of the Cronon AG are both generalists and specialists. Here they enjoy a great deal of independence and creative leeway.

Flat management structures and transparent decision making processes contribute greatly to our shared success.

Do you trust proven standards but don't consider individualization unnecessary luxury?

We do as well! We bank on proven standard software applied flexibly to meet specific needs – and when required augment it with unique solutions.

With us you can get the full range of solutions to operate and develop your business successfully. Our offers include:

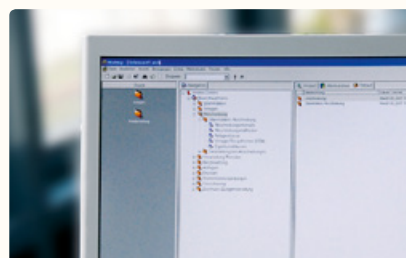

- **Enterprise Resource Planning (ERP)**
As an Infor official resale partner, Cronon is a dependable source for ERP solutions – from Infor ERP Baan 4 to Infor ERP LN.
- **Optimization of processes with Barcode and RFID**
As a competence center for barcode and RFID solutions, Cronon optimizes operations with InforBarcode. InforBarcode is a standard solution for mobile data collection, which has been developed especially for Infor ERP LN/Baan systems.
- **Data Base Management**
As a partner of the ORACLE Deutschland GmbH Cronon can meet your data base needs, from licensing, to tuning and monitoring.
- **Hardware und Middleware**
As an Advanced Business Partner of IBM Germany, Cronon is offering a complete range of hardware and middleware from the world's largest IT supplier.

Proven standard software offers a wide spectrum of possible solutions. However, when company demands exceed what is possible, individualization is no longer a luxury but a business necessity!

The customers of the Cronon AG are primarily small and medium-sized companies, many run by their founders.

The firms are largely manufacturers involved in piece and series production, automotive parts suppliers, wholesalers, and service suppliers – ranging from small companies to industry leaders.

Cronon AG – Internet Service Provider

Who plans and manages your IT connection?

No one at the moment? Or are you dissatisfied with your service?

Then talk to us!

As an internet service provider the Cronon AG can provide tailored internet and IT solutions – and most importantly – personalized care for

- Domain management
- Internet connectivity
- Networking
- Data center outsourcing

Cronon manages domains for large customers, groups, and public institutions. Part of our service involves providing a management tool granting the customer a convenient overview of up to several hundred domains.

We can provide reliable internet connectivity and networking for company locations – based upon availability utilizing either DSL or fiber optic.

We will administrate your server architecture in one of Europe's leading data centers.

Multiple external connections guarantee the highest standards of availability. Sophisticated, top-of-the-line power supplies and early warning systems provide for stable operation.

And what are your benefits?

The security of one of Europe's safest and most efficient data centers. You save on space for IT equipment and your IT staff can focus on the support of your IT applications.
